EUROREPAR

BRAKE CLEANER

Availability	
Packaging	Reference PSA
Aerosols 12 x 600ml	1636264280 (DFS)
Aerosols 12 x 600ml	1636264180 (Vesoul)

Properties & uses

- Used to degrease brake discs and braking systems.
- Highly effective cleaner, quickly eliminates stubborn dirt.
- Effective replacement for conventional chlorinated solvent-based cleaning products, while reducing aggressive effect on certain lastics and harmful vapours.
- Suitable for cleaning metal parts.

Instructions

- Spray directly onto the surfaces to be treated.
- Use the force of the spray to remove accumulated dirt and clean the part indepth.
- Allow to work for a few moments.
- Dry with a cloth or compressed air if available.
- Do not flush waste to the drain.

Composition

- Active ingredient : Specific, light aliphatic solvent.
- Propellant : Carbon dioxide.

Technical data	
Characteristics	Values
Color	Colourless
Aspect	Clear liquid
Density	0,74
Flash point	< 0°C
Boiling point	100°C
Surface tension 25°C	0,0183 N/m
Environment	Readly biodegradable
