EUROREPAR

RACK FOR 10 TYRES

GARAGE EQUIPMENT

PRODUCT ADVANTAGES:

- Supplied to the garage in kit form, the display stand is very easy to assemble using the instructions
- The materials used make this a robust piece of equipment
- Easy to handle, thanks to its weight, dimensions, and four pivoting castors.

The 10-tyre rack is the storage option dedicated to Eurorepar Reliance tyres.

This item, featuring the brand's colours, is both robust and easy to handle.

It can be used as a promotional display stand for the garage entrance area, and a storage rack within the workshop.

Did you know?

The range of display stands is gradually being expanded as new Eurorepar parts are released.

THE DISPLAY

It comprises two support frames, each of which can house five tyres with a max. width of 215 mm.
Each support is equipped with a transverse anti-theft bar locking the tyres on the support, a padlock, and a vertical rod ensuring both frames are simultaneously locked

The rack is formed of:

- Two rectangular 40 x 20 mm tube uprights.
- One rectangular 40 x 20 mm tube hoop fitted on the two uprights, with a black Forex panel 3-mm thick, printed on both sides.
- Two round 32-mm diameter tube tyre supports secured to the uprights with a screw + locknut.
- Epoxy paint coating.

The dimensions, weight, and four pivoting black nylon castors (two with a brake) help ensure it is very easy to manoeuvre:

- Width: 1220 mm, depth: 660 mm, height: 1810 mm, weight: 27 kg.
- Width of the 5-tyre support: 1075 mm.
