TECHNICAL CHARACTERISTICS

Knowing all the different functions that can be present on a window regulator is important. In this extended range you will find:

- **The anti-pinch function:** the glass interrupts its run in case of any obstacle (safety features);
- **The comfort function:** the glass continues its run even after the release of the switch;
- Control unit able to dialogue with the **LIN protocol** and therefore maintain all the functions integrated in the window regulators, even after the insertion of the spare part.
- **The Plug & Play connector's:** equal to those of the original window regulator, allowing to reduce and simplify installation and connection operations in the car door.

Our parts are guaranteed 2 years* against any manufacturing or material defect**.

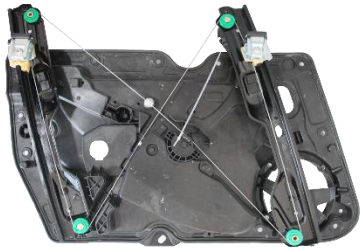

(*) For Peugeot, Citroën, FCA, DS, Opel, Vauxhall, Eurorepar Car Service repair networks: the warranty runs for 2 years, parts AND labour included.
(**) For the conditions of application, contact your dealer.

(*) Avoids any risk to fake parts and guarantees their quality.
