EUROREPAR

SUSPENSION WISHBONES/ARMS AND BALL JOINTS

SUSPENSION / STEERING

Last Update: 2024/02

100%
OF PARTS DESIGNED USING OE SAMPLES

PRODUCT ADVANTAGES

- Accurate wheel guidance using precisely adjusted suspension brackets (identical designs and dimensions to the OE)
- Driving safety

With over 257 suspension wishbone/arm products and 94 suspension ball joints covering most of the European fleet in circulation, the Eurorepar range of suspension parts has been developed to meet the needs of the market.

The role of the air filter is to purify intake air and reduce intake noises from the engine. It also preheats the intake air and regulates the temperature. **This regulation is very important with regard to the operation of the engine and the composition of the exhaust gases.**

Not using high quality grease may result in premature wear and tear in the ball joint links as well as potential noise issues.

ADDITIONAL SALES

When a suspension arm or wishbone is replaced, it is recommended to check the anti-roll bars from the same running gear, as well as the connected tie rods.

CHARACTERISTICS

The Eurorepar range includes the following:

- Single wishbones,
- Ball joints + screws and bolts,
- Suspension arms,
- Preassembled wishbones (Wishbone + mounted ball joint).

CONDITIONS FOR REPLACEMENT

The suspension should be checked during each service or after a strong impact (this will result in a follow-up visit after the Technical Inspection)
As wear and tear in this component is gradual, it is difficult for motorists to notice it. However, there are several warning signs of wishbone joint wear and tear:

- **A clicking noise when the vehicle drives over obstacles.**
- **Deteriorated grip.**
- **Vibrations in the steering wheel.**

INSPECTION POINTS

- General appearance (deformation, dents from impacts, corrosion, etc.);
- Status of silentblocs (clearance, rubber degradation);
- Status of the suspension ball joint (clearance, degradation of the protective housing).

Our parts are guaranteed 2 years* against any manufacturing or material defect**.

(*) For Peugeot, Citroën, FCA, DS, Opel, Vauxhall, Eurorepar Car Service repair networks: the warranty runs for 2 years, parts AND labour included.
(**) For the conditions of application, contact your dealer.

(*) Avoids any risk to fake parts and guarantees their quality.
