PARTICLE FILTER

EXHAUST

Latest update: 01/09/2025

TECHNOLOGIE SIC

FILTRATION OF PARTICLES > 95%

For cleaner Driving

PRODUCT ADVANTAGES

- 100% accredited range
- Can be quickly and easily adjusted during assembly
- Identical assembly method to the corresponding original parts
- 100% traceability across all components

With 5 product references (all Stellantis brands), **the Eurorepar Particle Filter range** has been developed to meet the needs of the market

Exhaust emission limits are becoming increasingly strict. In order to comply with these, not only is the cleanest fuel combustion possible required, but a particle filtration system must be installed as well.

That is why we pay **great attention to this type of part**. The tests conducted **have been approved by our experts.**

ADDITIONAL SALES

The status of engine parts (spark plugs, injectors, particle filter additives, etc.) has a direct impact on the particle filter and its service life.

TECHNICAL CHARACTERISTICS

Eurorepar particle filters are designed for:

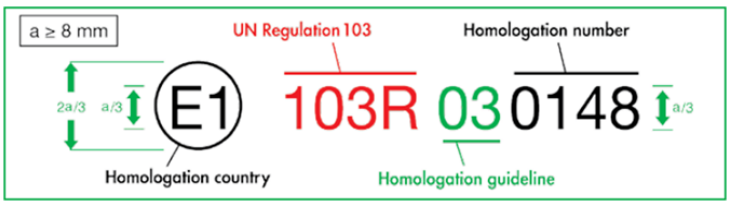

- Stellantis vehicles with SiC technology (Silicon carbide)

SIGNS OF FAULTS/DEFECTS

- The particle filter fault light on the dashboard switches on;
- Decreased engine power;
- Increased fuel consumption.

REGULATIONS

Regulation no. 103 ECE - UN. The number indicating the country in which approval has been given is surrounded by a circle with a capital letter E and followed by the number 103, which indicates that this part is compatible with the Regulation. This code is currently the most common in all vehicles produced after 23 February 1997. The Regulation no. 103 (103R) code must always be printed on the casing of the particle filter

Our parts are guaranteed for two years* against any defect in manufacture or material**.
(*) For the Abarth, Alfa Romeo, Chrysler, Citroën, Dodge, DS, Eurorepar Car Service, Fiat, Fiat Pro, Jeep, Lancia, Opel, Peugeot, Ram and Vauxhall repair networks: the warranty is for parts AND labour for two years.
(**) For the applicable conditions, ask your distributor.
