EUROREPAR

SHORT RANGE
Front flat-blade, multi-adapter wipers

11 REFERENCES

90% COVERAGE RATE

Integrated spoiler = optimal wiping QUALITY

NEW RANGE

PRODUCT ADVANTAGES

- → ***Over 2,500 multi-brand applications covered (RHD / LHD)***
- → ***12 types of assembly covered with only 4 adapters for a quick and simple assembly.***
- → ***New metal display stand in December***

With a range of **11 front flat-blade, multi-adapter wipers covering 90% of the European market**, the new short range of front flat-blade, multi-adapter wipers has been developed to meet the needs of the market.

The quality of a wiper blade is measured by the **wiping performance** and **durability of the blade**. Eurorepar wiper blades are made from high-tech rubber with a long-lasting protective coating.

To guarantee the best quality / price / performance ratio, **our wiper blades are tested according to a very strict protocol**

TECHNICAL CHARACTERISTICS

- **11 references of front flat-blade multi-adapter wipers**
- Each wiper blade has **3, 4 or 5 connectors** depending on the model, a module and a hook to ensure adaptability to all vehicles.
- **Robust structure** with a metallic vertebra for ideal curvature, **symmetrical spoiler** for high speed **wiping efficiency**

NEW PACKAGING

- **More attractive packaging:** the new Eurorepar range of front wiper blades has been modernized with a new sleeve.
- **Quick identification of the main applications** on the front label.
- A **secure label** to prevent counterfeiting.

CONDITIONS FOR REPLACEMENT

- We recommend changing front and rear wiper blades once a year
- Wiper blades in bad condition is a **criterion for a follow-up inspection during an MOT test**.
- Wiper wear is generally characterised by: marks left on the windscreen and noises (whistling / juddering, etc.) when using the wipers.

SHORT RANGE=

Better management of your stocks + space saving

SECURE LABELS — Avoids any risk to fake parts and guarantees their quality.

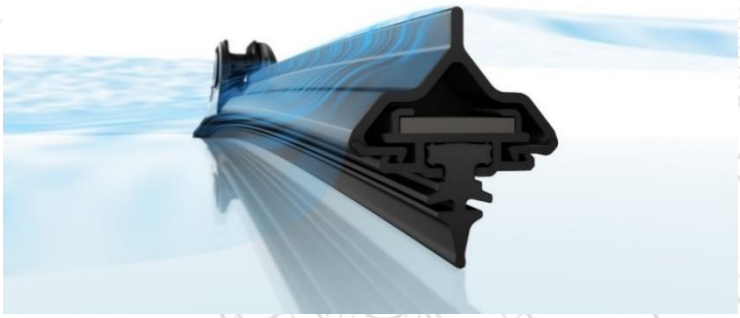

AND

NEW METAL DISPLAY STAND, mobile, with the Eurorepar logo. Size: L 1,160 x W 750 x H 1,180 mm

GLOBAL BENEFITS

Symmetrical profile with integrated spoiler ensuring a uniform pressure on the whole windscreen

High-tech rubber with long-lasting protective coating.

Rigid structure providing **excellent resistance to bad weather**.

WIPER PERFORMANCE

Wiper performance is evaluated using visual tests conducted in a real situation. The **aim of these tests is to identify any streaks or film of water** remaining on the windscreen after each wipe cycle.

Eurorepar windscreen wiper blades display a **very good performance**. **No mark is detected** during wiping: no streaks or film of water.

Protection Type	Competitor 1	Competitor 2	EUROREPAR
Upward phase of the cycle	7.6	6.8	**9**
Downward phase of the cycle	2	7.2	**7.3**

DURABILITY

The quality of the rubber is an essential part of the windscreen wiper blade.
The blade undergoes a **double-surface treatment** in order to protect it over time:
Halogenation treatment for enhanced durability / service life and **graphite treatment** to improve blade slide on the windscreen for better, quieter wiping
