BULBS

EUROREPAR

x 4
SERVICE LIFE OF THE H7 LL (LONG-LIFE)

ECE R37

PRODUCT ADVANTAGES

- → ***Extensive range including headlights, indicators, interior lighting, etc.***
- → ***18 references covering more than 90% of vehicles on the road in Europe***
- → ***Easy to install: same connectors as the original part***
- → ***Durability: effective for 100,000 km (H7LL)***
- → ***Resistant to UV light and moisture***

With a range of **18 references covering more than 90% of vehicles on the road in Europe,** the Eurorepar range of bulbs meets the expectations of customers looking for the right **price / quality / performance ratio**.

Bulbs contribute to the safety of motorists. They **enable you to see and be seen** during the day and at night.

Furthermore, **all our products comply with European standard ECE R37 and all our lights carry the E1 certification mark**.

GOOD TO KNOW

Almost 9% of cars have faulty lights, representing 3 million vehicles. This is a sizeable number, given that night driving represents less than 10% of traffic but almost half of all fatal accidents.

TECHNICAL CHARACTERISTICS

Short range of 16 bulb references + 2 sets containing the best-sellers

- **Anti-UV light halogen bulbs H1 / H7 / H4** : **optimum performance and service life (more stringent production tests** at 13.5 V instead of 13.2 V stipulated by the standard) and protection of light mirrors against yellowing.
- Products selected after **analysis of supplier data** by the technical and quality departments.
- **Product traceability**: secure Eurorepar label on the sales unit.

CONDITIONS FOR REPLACEMENT

- You are **advised to replace bulbs in pairs** in order to avoid uneven lighting between the right-hand and left-hand sides, which could impair the driver's vision.
- Use of **daytime lighting increases the frequency of bulb replacement**.
- The highway code **prohibits motorists from driving with a faulty bulb**; it is therefore advisable to keep one or two spare bulbs or even **a replacement set** (no preventive replacement) in the vehicle.

REGULATIONS

- Regulation **ECE R37** through **E1 certification (Germany)**.
- International standards **IEC 60809** and **60810** relating to design, validation and performance.
- Supplier certified **ISO 9001** and **TS16949**

SECURE LABELS — Avoids any risk to fake parts and guarantees their quality.

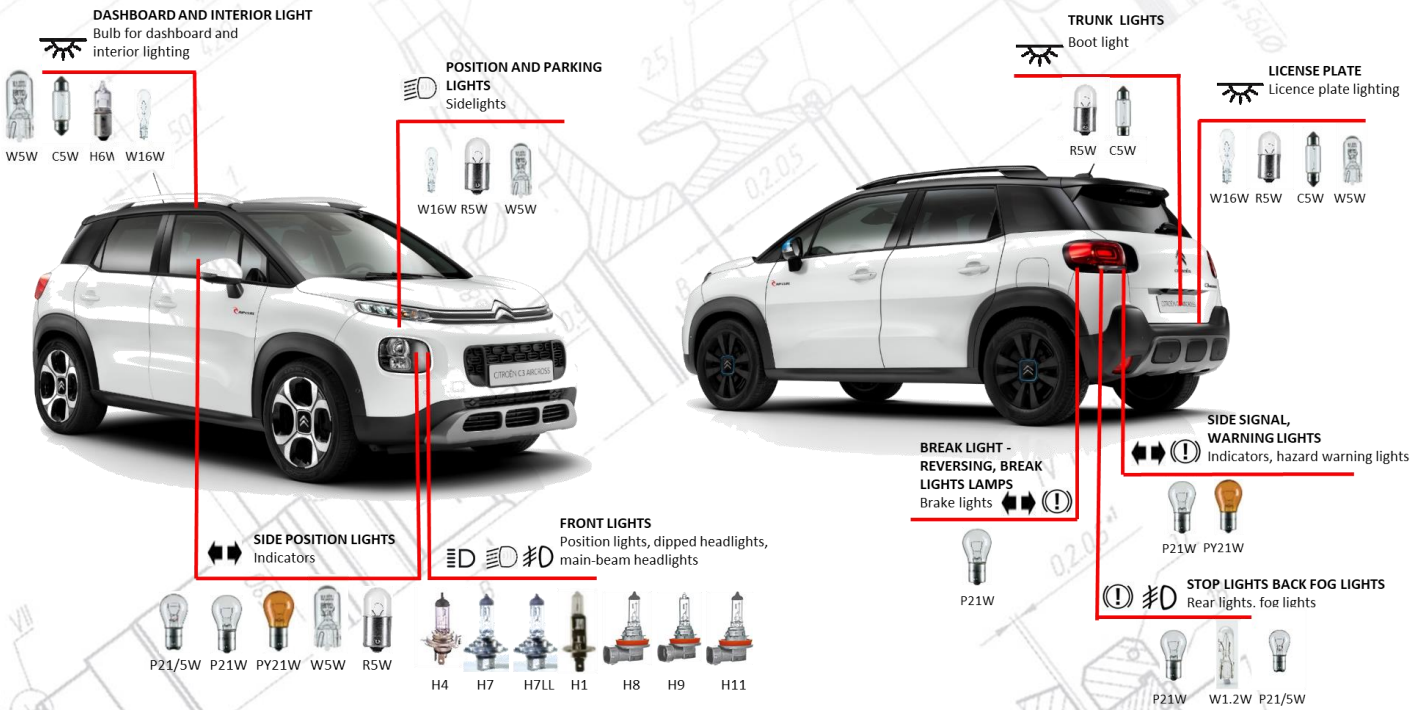

Our parts are guaranteed for **2** years*

Our parts are guaranteed 2 years* against any manufacturing or material defect**.
(*) For Citroen, DS, Peugeot, Euro Repar Car Service repair networks: the warranty runs for 2 years, parts AND labour included.
(**) For the conditions of application, contact your dealer.
