CATALYTIC CONVERTER

EUROREPAR

ENGINE PERFORMANCE + ACOUSTIC COMFORT

ELIMINATES 99 % OF THE MOST HARMFUL EXHAUST GASSES

For cleaner driving

PRODUCT ADVANTAGES

- → ***R103 European Approval + several tests approved by the engineering division of the PSA Group***
- → ***Identical assembly method to the corresponding original parts***
- → ***160,000 km* useful life***

(*) Depending on the vehicle's age, how well it is maintained and the engine's anti-pollution device

With more 200 products, the Eurorepar catalytic converter range has been developed to meet market requirements.

Exhaust emission limits are becoming increasingly strict. To comply with these, the cleanest possible fuel combustion is required and an exhaust filtration system should be installed.

That is why we pay **great attention to this type of part**. The tests conducted **have been approved by our experts**.

TECHNICAL CHARACTERISTICS

- **The Eurorepar catalytic converter eliminates up to 99 % of toxic compounds,** exhaust gasses (carbon monoxide, hydrogen fuel, nitrogen, etc.);
- The catalytic converter is made up of a **stainless steel casing**, **thermal insulation** and a **filter containing precious metals**.

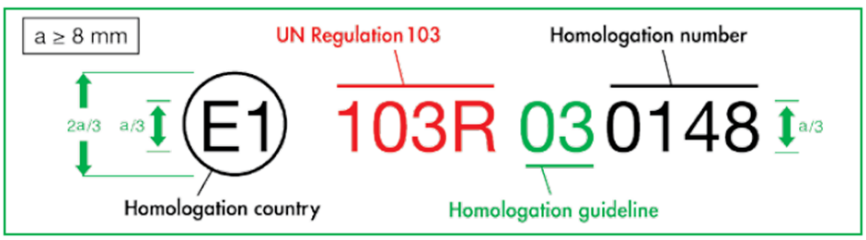

When pollutants come into contact with these precious metals (catalysts), a chemical reaction transforms them into less toxic gasses.

CONDITIONS FOR REPLACEMENT

Regular maintenance of the vehicle, in accordance with the manufacturer's recommendations, will help the catalytic converter to last longer.

REGULATIONS

United Nations Regulation No. 103. The number indicating the country in which approval has been given is surrounded by a circle with a capital letter E and followed by the number 103, which indicates that this part is compatible with the Regulation. This code is currently the most common in all vehicles produced after 23 February 1997. The Regulation no. 103 (103R) code must always be printed on the casing of the catalytic converter

ADDITIONAL SALES

The status of the engine components (spark plugs, air filters, etc.) has a direct effect on the catalytic converter and how long it lasts, in particular in the case of petrol vehicles.

Our parts are guaranteed for **2** years*

SECURE LABELS — Avoids any risk to fake parts and guarantees their quality.

www.eurorepar.com

Our parts are guaranteed 2 years* against any manufacturing or material defect**.
(*) For Citroen, DS, Peugeot, Euro Repar Car Service repair networks: the warranty runs for 2 years, parts AND labour included.
(**) For the conditions of application, contact your dealer.
